

The State of Black Women & Reproductive Justice

LOUISIANA

Louisiana has a population of 4.65 million people, making it the 25th most populous state in the U.S.^{1 2}

- One-third of the population (33%) is Black (approximately 1.5 million individuals), compared to 13% of the national population.
- 58.1% of the population is white; 5.5% is Hispanic; 1.6% are two or more races; 1.8% is Asian; and .7% is American Indian or Alaska Native.³

Legislative Profile⁴

- Governor Jeff Landry (R) opposes reproductive autonomy.
- The Louisiana House and Senate oppose reproductive autonomy.

Policy Profile: Access to Health Care

AFFORDABLE HEALTH CARE^{5 6}

- The uninsured rate for Black people in Louisiana is 9.4%, compared to the national average uninsured rate of 11.4%.
- Louisiana adopted Medicaid expansion and, as a result:
 - » 1,892,195 people are covered by Medicaid and the Children’s Health Insurance Plan (CHIP). This is an increase of 85% people newly covered with insurance since 2013.
 - » There has been a 50% reduction in the rate of insurance in the state.

HEALTH IMPACT FROM COVID-19⁷

- Black people make up 32% percent of the population in Louisiana and 38% of COVID-related deaths. Whites are 62% of the population and 58% of deaths. Hispanics comprise 5% of the population and 3% of deaths.
- Almost one-third (31%) of the Black population has been vaccinated, compared to 58% of the white population, and 7% of Hispanic population.

ACCESS TO ABORTION CARE^{8 9 10}

- Louisiana was one of 13 U.S. states with a “trigger law,” meaning legislation was already in place that, with the fall of *Roe v. Wade*, instantly made abortion illegal throughout the state.”
- State constitution explicitly excludes abortion rights.
- The use of telemedicine to administer medication abortion is prohibited. Medication abortion must be provided in-person because the state bans the use of telehealth or mailing pills or requires an in-person visit.
- Public funding is available for abortion only in cases of life endangerment, rape, or incest.
- State Medicaid coverage of abortion care is banned except in very limited circumstances.

FAMILY PLANNING SERVICES^{11 12 13}

- The state’s ban on public funding (including Title X funding) for abortion care providers and facilities that are affiliated with abortion care providers is currently enjoined.
- The parent of a minor must consent before an abortion is provided.

SEXUAL HEALTH EDUCATION^{14 15}

- Louisiana does not require sexual health education or HIV/AIDS prevention education in any grade level; this content is allowed to be taught only in grades 7-12.
- When taught, educational content must stress abstinence-only-until-marriage.
- School boards decide if other topics will be included during sexual health education courses.

Systemic Disparities

STD/STIS, INCLUDING HIV/AIDS¹⁶

- Black women are 10.7 times more likely to be diagnosed with HIV and to die from AIDS than white women in Louisiana are.
- Black women were diagnosed with 73% of Louisiana’s 5,843 cases of gonorrhea; white women and Hispanic women received 27% and 2% of diagnoses, respectively.
- Louisiana has the 12th-highest Syphilis rate in the nation. Pregnant Black women were diagnosed with 65% of Louisiana’s Congenital Syphilis cases; white women received 29% of diagnosis, Hispanic women 6%.

REPRODUCTIVE CANCERS¹⁷

- In Louisiana, the age adjusted rate of new breast cancer cases is 128.6 cancers for every 100,000 women.
 - » The rate for Black women is 133.2/100,000 compared to 129.5 and 75.7 for white and Hispanic women, respectively.
 - » The breast cancer mortality rate for Black women is 29.4 deaths for every 100,000 women, compared to 19 for white women and 17.4 for Hispanic women.
- The rate of cervical cancer cases is 9 cancers for every 100,000 Louisiana women.
 - » The rate for Black women is 10.1/100,000, compared to 7.8 for white women (there are no data on Hispanic women).

MATERNAL AND INFANT MORTALITY^{18 19}

- The mortality rate for Black infants is more than double that of white infants: 11.3 deaths per 1000 live births, versus 5.8, respectively.
- Black women are more than twice as likely to die (2.5 times) as white mothers of pregnancy-related causes. The majority (80%) of pregnancy-related deaths are potentially preventable.

LGBTQIA+ LIBERATION^{20 21 22 23}

- Louisiana still has anti-sodomy and HIV/AIDS criminalization laws on the books.
- State law restricts inclusion of LGBTQIA+ topics in schools.
- Louisiana does not offer the ability for same-sex couples to list their gender on birth certificates (the only options are either "mother" or "father").
- Gestational surrogacy is legal only for Louisiana residents who use their own gametes (i.e., egg and sperm) same-sex couples; single people; and heterosexual couples who require an egg or sperm donor are not able to sign a surrogacy contract in Louisiana.

DISABILITY JUSTICE

- 15% of Louisianians have a disability, compared to a national average of 12.5%. Of those, 63.4% are white, 32.8% are Black, and 3% are Hispanic.

- State law prohibits employment discrimination against people with disabilities for employers with more than 19 employees.
- Fair housing laws protect those who have disabilities from unfair treatment with respect to buying or renting housing.^x

ECONOMIC JUSTICE^{24 25 26 27 28}

- Louisiana ranks last in the nation for Black woman's wage equality; Black women are paid, on average, less than half of what white men are: 49 cents for every \$1.
- Over a 40-year career, this wage gap will cost a Black woman \$1,225,320, compared to a white man's earnings.
- More than one-quarter of Black and Hispanic Louisianians live in poverty (29.4% and 25.3%, respectively), compared to just 12.7% of white people.
- The unemployment rate for Black women is twice that of white women (7.4% and 3.6%, respectively).
- Almost one-fifth (19.3%) of Black women in Louisiana lack a high school diploma, compared to 11% of white women; 17% of Black women have earned a college degree, compared to 27% of white women.

CRIMINAL JUSTICE^{29 30 31}

- Louisiana has the highest per capita incarceration rate in the United States, and the highest number of people sentenced to life without parole. It also has the highest in-custody death rate in the country.
- Black people in Louisiana are 4 times more likely to be incarcerated than whites. Black juveniles are 4.7 times more likely to be in custody than white juveniles.
- Almost two-thirds (62%) of those who have been felony disenfranchised are Black.
- Restraints are prohibited from being used in women in labor and delivery unless a physician orders them for therapeutic needs (e.g., psychiatric or medical) or if the pregnant person poses a flight risk. Use of restraints on pregnant people is limited in the 2nd and 3rd trimesters.

- Louisiana ranked fifth in the nation in the rate of women being murdered by men.
- The state's rate of women being murdered by men is 77% higher than the national average: 2.26 homicides per 100,000 women in Louisiana.
- Over one-third (35.9%) of Louisiana women have experienced physical and/or sexual abuse by an intimate partner.
- More than half of women murdered in Louisiana were killed by a partner or ex-partner.

BLACK PEOPLE IN LOUISIANA ARE
4 TIMES MORE LIKELY
TO BE INCARCERATED THAN WHITES.

BLACK JUVENILES ARE
4.7 TIMES MORE LIKELY
TO BE IN CUSTODY THAN WHITE JUVENILES.
